

## Code Week 4 All Challenge

### Let's Train an AI Robot

The specific activity entitled " Let's Train an AI Bot! " aims to introduce students to the concept of artificial intelligence (AI), machine learning, educational data and prejudice, while exploring ethical issues and especially how to use artificial intelligence to tackle global problems.

*Primary school students – 1<sup>st</sup> to 6<sup>th</sup> Grades*

In this activity students will program or train AI (artificial intelligence) to identify fish or trash. Let's clean up the ocean!

#### *Experience*

Beginners

#### *Instructions*

Instructions are shown as videos within the tutorial (<https://code.org/oceans>) and also written at the top of each level.

#### *Example*
